The table below sets out the characteristics of each type of investment to help you and your Financial Adviser select investment options.

Investment Option	Characteristics
<p>Managed Accounts</p>	<p>Managed Accounts are a portfolio of assets which may be made up of Managed Divisions, listed securities, fixed income securities and/or cash which are run by a professional Managed Account Investment Manager. We appoint a range of Managed Account Investment Managers with a variety of portfolio strategies and objectives to advise Platformplus Super Wrap on a variety of Managed Accounts.</p> <p>The managers design each portfolio based on a number of factors such as investment style, asset allocation approaches, investment objectives and different risk profiles.</p>
<p>Australian Securities Exchange (ASX) - Listed Securities</p>	<p>Platformplus Super Wrap will offer access to a broad range of ASX listed securities, including:</p> <ul style="list-style-type: none"> • Ordinary shares in the S&P/ASX 300; • Exchange Traded Divisions (ETFs); • Australian Real Estate Investment Trusts (A-REITs); • Listed Investment Companies (LICs); • Interest rate securities; and • Hybrids (such as preference shares and convertible notes). <p>Some ASX-listed securities, for example warrants, are not available for investment through our investment menu.</p> <p>ASX-listed securities may pay dividends or distributions, which will be deposited into your Super Cash, or reinvested based on your nomination.</p>
<p>Managed Divisions</p>	<p>Managed Divisions are operated by professional managers. They may be made up from a combination of multiple asset classes or may comprise a single asset class type. They have a defined objective that may include an income or growth outcome.</p> <p>Managed Divisions should be considered a long-term investment and should take into account your investment needs. Members invest in units of Managed Divisions and not the underlying securities. Distributions will generally be paid periodically and deposited into your Cash Account. Distributions from Managed Divisions can also be reinvested based on your nomination.</p> <p>Before you invest in a Managed Division, you should refer to its Product Disclosure Statement (PDS) for more information.</p>
<p>Cash</p>	<p>Cash provides members with security and liquidity. Cash is considered a low volatile asset and is therefore classed as defensive. Platformplus Super Wrap Cash held in your Account earns interest, however, the return may be below the potential returns for other investment choices.</p> <p>When you first join the Division, you direct us to invest your money in Platformplus Super Wrap Cash until we receive an investment instruction from you or your Financial Adviser on your behalf. We will not make a withdrawal from your Platformplus Super Wrap Cash without your authorisation.</p>
<p>Term Deposits</p>	<p>A term deposit is a fixed-term cash deposit held at a financial institution. The Division will only provide access to term deposits from the Australian Prudential Regulation Authority's (APRA) register of Authorised Deposit-taking Institutions (ADIs). They are generally short-term deposits with maturities ranging anywhere from a month to several years.</p> <p>Term deposits are less liquid than cash and are considered a defensive asset as they provide capital security. Their return is generated from a set rate of interest for a defined period. When a term deposit is purchased, the investment has very restrictive capital withdrawal options, and may only be withdrawn upon maturity or in certain circumstances such as in the case of hardship (as determined by the term deposit provider). The term deposit provider maintains the absolute discretion to approve an early repayment. Costs may apply where it is possible to break a term deposit before maturity.</p> <p>Before you invest in a Term Deposit, you should refer to its Product Disclosure Statement (PDS) for more information.</p>

Diversification requirements

Holding limits apply to individual investments available in Platformplus Super Wrap to ensure that your super investments are appropriately diversified. These limits help to enable diversification by ensuring that you do not hold more than a certain proportion of your investments in any one type or category of investment.

The limits are set by the Trustee, based on an assessment of investment liquidity, diversification and risk. Your Financial Adviser will be notified if you exceed the limits in place.

The investment objective(s) are not a promise or guarantee of a particular return and are used to monitor ongoing performance of the options and underlying investments.

See further below for information about how investment returns are allocated to members. For information about the investment performance of the Division's investment options for the reporting period, refer to your annual member statement for the period. Past performance is not a reliable indicator of future performance.

For unitised investments, unit prices fluctuate based on performance, impacting the value of your Portfolio. Information about pricing can be found in the relevant product disclosure statement. Listed securities have daily price updates, while income from these investments is applied to the member's cash balance. Benefits like imputation credits are also credited to members. For term deposits, interest is passed on according to specific terms, and early redemption may incur fees. Income from various investments is allocated to either the Platformplus Super Wrap Cash or Managed Account cash balance, and all earnings are subject to superannuation tax. Closing a Portfolio may lead to the loss of unprocessed tax benefits and carry-forward capital losses.

Division Reserves

The movements in the Division's reserves during the three most recent Division reporting periods is outlined in the table below:

Year ending 30 June	Operational Risk Reserve (\$'000)
2022	12
2023	27
2024	87

Reserving Strategy

Super Division trustees are required to 'reserve' monies which can be drawn on to address losses arising from operational risks. The Trustee of the Division meets this requirement by: maintaining a reserve in the Division called the Operational Risk Reserve (ORR) for this purpose which is operated in line with the Trustee's Operational Risk Financial Requirement (ORFR) strategy; and holding an amount of Trustee capital outside the Division (Trustee Capital). A charge is levied to cover the cost incurred by the Trustee in obtaining Trustee capital to meet ORFR obligations. Any excess will be retained within the Division and may be used to build and maintain the Division's ORR requirements. Interest earned on any unallocated monies received by the Division may also be allocated to the ORR. The target reserve amount at 30 June 2024 was determined as being 0.25% of the Division's net assets. Should the total ORFR fall below 80% of the target amount, the Trustee will implement a Replenishment Plan to increase the ORFR to its target amount. The level and appropriateness of the ORFR is reviewed annually.
